DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

The applicant is requested to elect one from the following species.

PORE FORMER PRECURSOR

A hydrocarbon compound having 1-13 carbon atoms

A decomposable polymer

A polyoxalkene

Mixtures thereof

Should the applicant elect the hydrocarbon, the applicant is requested to elect one from the following species.

HYDROCARBON

Alpha-terpinene

Limonene

Cyclohexane

Gamma-terpinene

Art Unit: 2813

Camphene

Dimethylhexadiene

Ethylbenzene

Norboradiene

Cyclopentene oxide

1,2,4-trimethylcyclohexane

1,5-dimethyl-1,5-cyclooctadiene

camphene

adamantine

1-3-butadiene

substituted dienes

alpha-pinene

beta-pinene

decahydronaphthelene

Should the applicant elect a decomposable polymer, the applicant is requested to elect one from the following species.

DECOMPOSABLE POLYMER

Where the polymer is decomposable by radiation

Where the polymer is a block copolymer

Art Unit: 2813

Where the polymer is a hyper branched polymer

Where the polymer is a dendrimeric polymer

Should the applicant elect a block polymer, the applicant is requested to elect one from the following species.

BLOCK POLYMER

Diblock

Triblock

Multiblock

Star block copolymer

Radial diblock copolymer

Graft diblock copolymer

Cografted copolymer dendrigraft copolymer

Tapered block copolymer

Combinations thereof

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims

readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
